SUMMARY

Full-Stack Web Developer and B.Com (Computer Applications) graduate with hands-on experience building production grade applications using Laravel, Flask, and MySQL. Strong foundation in Python, JavaScript, and responsive UI design; experienced in collaborative, deadline-driven environments delivering clean, maintainable code.

EDUCATION

Bachelor of Commerce – Computer Applications (B.Com CA)

The American College, Madurai

2023 – 2026

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, HTML5, CSS3
- **Frameworks & Libraries:** Laravel, Flask, Tailwind CSS
- **Database:** MySQL
- **Tools & Platforms:** Git, GitHub, Vercel, Netlify
- **Soft Skills:** Effective Communication, Team Collaboration, Time Management, Adaptability, Problem-Solving

PROFESSIONAL EXPERIENCE

Junior Web Developer – Intern

RTS Software, Madurai

December 2025 – January 2026

- Built and deployed **Moitrack**, a data-tracking application using Laravel and MySQL, implementing full CRUD operations across 5+ relational database tables.
- Engineered patient registration and appointment modules for a Hospital Management System, streamlining 2 core clinical workflows and reducing manual data entry steps.
- Collaborated with a 4-member development team to deliver clean, maintainable code across 2 production modules within strict project timelines.
- Gained hands-on exposure to real-world software development practices, contributing to both backend architecture and database integration.

PROJECTS

Himalaya Lip Balm Website

himalaya-lipbalm-showcase.vercel.app

- Constructed a fully responsive product showcase using HTML, CSS, and JavaScript, optimized across mobile, tablet, and desktop viewports.
- Crafted an interactive hero section with animated product cards and scroll-based animations using the AOS library.
- Implemented a contact form with popup confirmation, custom cart drawer, and order success animation.

LendWise – Library Management System

web-production-1e11b.up.railway.app

- Built a full-stack application using Flask and MySQL featuring role-based access control (RBAC) and secure authentication with bcrypt, CSRF protection, and rate limiting for 2 user roles.
- Architected a normalized relational database schema supporting 6+ tables with connection pooling and optimized queries for improved performance.

- Developed a borrow/return tracking system with renewal support, automated overdue fine calculation, and email notifications via Gmail SMTP.
- Implemented an admin dashboard with analytics charts, activity logging, member management, and CSV/PDF export using ReportLab.

Personal Portfolio Website

ziyad-portfolio-nine.vercel.app

- Built and deployed a fully responsive portfolio website to showcase projects, skills, and experience using modern front-end development practices.
- Developed interactive features such as custom animations, smooth scrolling navigation, terminal-style typing effects, dynamic text scrambling, and Canvas-powered visual effects.
- Implemented SEO best practices, PWA configuration, and performance-focused design to ensure accessibility and optimal user experience across mobile, tablet, and desktop devices.
